- processing a request include:
  The name of the corporation on the tax return does not match the name on the account.
- The financial institution rejects the direct deposit because of an incorrect routing or account number.
- The corporation fails to indicate the type of account the deposit is to be made to (i.e., checking or savings).

#### **How To File**

Attach Form 8050 to the corporation's Form 1120 or 1120S after Schedule N (Form 1120) (if applicable). To ensure that the corporation's tax return is correctly processed, see **Assembling the Return** in the instructions for Form 1120 or 1120S.

#### Specific Instructions

Line 1. Enter the financial institution's routing number and verify that the institution will accept a direct deposit. See the sample check below for an example of where the routing number may be shown.

For accounts payable through a financial institution other than the one at which the account is located, check with your financial institution for the correct routing number. **Do not** use a deposit slip to verify the routing number.

Line 2. Enter the corporation's account number. Enter the number from left to right and leave any unused boxes blank. See the sample check below for an example of where the account number may be shown.
